Rehabilitative Palliative Care

Following on from the Hospice UK publication in 2015 of *Rehabilitative Palliative Care: Enabling people to live fully until they die – A challenge for the 21st century*, this conference aims to bring together clinicians and leaders from hospices who are putting the guidelines into practice and making a difference to supporting patients and families by taking this rehabilitative approach forward.

Who is the conference for?
This conference is for anyone who has benchmarked their hospice or services against the rehabilitative palliative care guidelines and who is interested in taking the next steps in changing or improving services to help people to live fully until they die.

What will I learn?
This conference will aim to look at in detail:
- the culture change in palliative care
- personalisation and use of tools such as the one page profile
- examples in practice of rehabilitative palliative care:
  - person centred goal setting
  - focus on function beyond symptoms
  - enablement
  - supported self-management.

What else will the conference offer?
This conference will offer a combination of talks, workshops, and a marketplace of different services and innovations.
