

Friday

visits

Come along and find out what it's like inside a hospice

Designed for clinical professionals and those working in the health and social care sector, our Friday Visits give you an opportunity to take a tour around our working hospice and learn more about the work St Christopher's does. We'll give you the story of our history and founding principles, discuss the patient and relatives' journey through our services and discuss some of the challenges we face in the future. With input from various members of the team this is a unique opportunity to understand the role of a hospice and how St Christopher's is more than just a hospice.
